

block<oin Presents:

# Blockkoin Investor Summary

Fueling the Future of Crypto Liquidity

# FUELING THE FUTURE OF CRYPTO LIQUIDITY

## SECURE. COMPLIANT. FORWARD-THINKING.

Blockkoin (Pty) Ltd is a licensed financial services provider that offers secure and user-friendly access to cryptocurrency trading and digital asset management. We empower both individuals and businesses to buy, sell, and manage digital assets within a transparent and trusted environment.

## WHY LIQUIDITY MATTERS

As a South African-regulated cryptocurrency exchange, liquidity is the backbone of our ability to offer competitive rates, execute high volume trades efficiently, and ensure price stability across markets. Liquidity enables us to scale our OTC trading, deepen our order books, and offer institutional-grade infrastructure to our clients.

**Our platform combines strong regulatory foundations with innovative tools to serve both entry-level traders and experienced investors. From seamless onboarding and competitive pricing to expert trade desk support and rapid settlement, we are committed to reshaping the digital financial experience.**

# OUR CORE SOLUTIONS

## SECURE. COMPLIANT. FORWARD-THINKING.

### Private, Secure, and Efficient

The Blockkoin Trade Desk is designed for high-volume clients who require discretion, speed, and precision. With the ability to execute large orders without slippage, our OTC desk provides:

- Rate-locking mechanisms to ensure stability in volatile markets
- Settlement in under an hour, supported by Fireblocks' institutional-grade security
- Real-time execution across South Africa, the UK, Europe, and beyond
- Dedicated specialists offering tailored pricing, client onboarding support, and reporting

We maintain relationships with global liquidity providers, ensuring deep liquidity, competitive spreads, and responsive pricing

## BLOCKKOID EXCHANGE

### A Fully Compliant Spot & Derivatives Platform

The Blockkoin Exchange provides seamless crypto trading with access to a wide range of digital assets. It is fully integrated with local and international markets, offering:

- Spot trading with high throughput and minimal latency
- Flexible coin listings and responsive market-making
- Derivatives including futures and options for advanced strategies
- Deep liquidity pools supported by proprietary infrastructure and partner APIs

The exchange prioritizes compliance, cybersecurity, and flexibility, positioning Blockkoin as a powerful alternative to larger global exchanges while retaining local regulatory oversight.

# OUR CORE SOLUTIONS

## QUANTUM WEALTH

### Smarter Growth Through Digital Asset Strategy

Quantum Wealth is a structured, non-discretionary platform offering clients access to high-frequency digital asset insights, model strategies, and stablecoin-based yield options.

- Technology-driven insights via algorithmic tools and research
- Model portfolios that align with macro and FX trends
- Reporting and visibility to give clients full control of their holdings
- Stablecoin-centric positioning for reduced volatility exposure

We offer this product under strict FSCA awareness guidelines, with client funds held in segregated accounts and without discretionary asset management.

## CRYPTO PAY

### Modern Payment Infrastructure for Digital Commerce

Crypto Pay enables businesses to invoice and accept payments in fiat and stablecoins without the delays and fees of traditional banking.

- Invoicing and instant settlement in crypto or fiat
- Built-in compliance and tax alignment
- Reduces fraud and chargeback risk
- Empowers cross-border commerce

Accessible via a streamlined dashboard, Crypto Pay bridges the gap between blockchain innovation and day-to-day commerce.

# Investor Opportunity: A Liquidity Flywheel

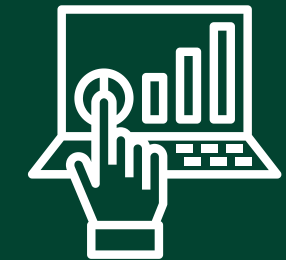

Blockkoin's long-term growth strategy requires liquidity partners who understand the critical role capital plays in

Expanding OTC capacity  
and execution reliability

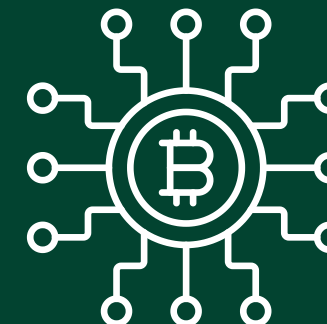

Deepening exchange  
liquidity across markets and  
token pairs

Accelerating client  
onboarding through  
efficient settlement

Positioning Quantum Wealth  
for scale through  
transparent yield structures

Boosting institutional interest  
by offering price stability and  
volume guarantees

# Blockkoin Ecosystem

On ramp - Off Ramp

 STEP UP  
TO GROWTH

# TRUST, COMPLIANCE, PERFORMANCE

Liquidity isn't just capital it's a growth accelerator. With clear compliance structures, custody through Fireblocks, and full client segregation, investors can trust that their capital is protected while working to fuel one of Africa's most promising crypto exchanges

Blockkoin represents a new era in South African crypto finance where compliance meets innovation, and investors meet opportunity. With FSCA licensing, secure infrastructure, and a team experienced in FX, payments, and crypto asset strategy, we're building not just an exchange, but a financial ecosystem. We invite investors to join our mission of shaping secure, efficient, and compliant digital finance in Africa and beyond. We welcome strategic liquidity partners to join us in unlocking scale, speed, and sustained returns.
